.NET framework

HTML

CSS & SCSS

Javascript

React Js & Redux

Next Js

SQL

C#

RESTful API's

Node Js

Firebase & Firestore

Hello...my name is Prince. I am a full stack developer using the .NET framework. I use the Asp.net framework and C# programming language to develop server side web applications, develop RESTful APIs and so much more. I also use the React JavaScript framework, Html, CSS, SCSS to develop web app client side. I also develop desktop applications using the C# programming language and the .NET framework. I have developed projects to carry out different tasks using the .NET framework.

WORK EXPERIENCE

2022

Momas ltd Nigeria

Worked as a full stack developer at Momas ltd. I developed web applications, administered to database while working with a team of deveopers

2021

Freelancer

I worked as a freelancer with organisations like Fiverr, Upwork, Freelancer and the likes of them
